## PROJECTS

---

### Newsapp - React , API , JS , React Router

- Developed a scalable news application using React, JS, and React Router.
- Integrated with an API to retrieve real-time news data and utilized React.js components for efficient data rendering.
- Implemented multiple sections for users to access updated news, including Business, Entertainment, General, and Health categories.
- Live Demo :- <https://drive.google.com/file/d/1bPkL8Tux3Mh3Rbb8ge68LzwYQ3pVT0YI/view?usp=sharing>

### Code Editor - HTML , CSS , JavaScript

- It will be a code editor with live preview having 3 input text areas and 1 output area.
- Write a function in app.js to show the compiled code back on the same page.
- Making it look decent with style.css , Make the textareas responsive with media queries.
- Live Demo :- <https://code-editor-rm.netlify.app/>

### Hospitality Domain - SQL , Power BI , Data Analytics

- The task is to create metrics, dashboard, and relevant insights to provide the revenue management team with valuable insights. To gain a competitive edge in the luxury/business hotel category by providing valuable insights that can inform decision-making and lead to increased revenue and market share.
